PROFILE

Front-end developer and technical leader with 3+ years launching high-impact web applications. Proven ability to lead development teams, manage projects efficiently, and deliver scalable products. Passionate about creating solutions that drive business results through robust, user-friendly interface.

PROFESSIONAL EXPERIENCE

Mar 2024 — Present

Technology Operations Engineer, Konfront

- Lead a 7-person team (3 Sr, 4 Jr) across ten concurrent projects, own sprint planning and OKRs.
- Launched **Xcape**, a travel-booking app for university groups, enabling users to create custom packages and pay in-app. Processed **1,000,000 MXN** in the first month and reduced manual trip coordination workload by **80%**.
- Developed **J4VO** finance platform: Integrated interactive KPI dashboards (Chart.js), improving financial visibility for 82% of users.
- Launched **Inventa** credit quotation for insurance brokers, reducing turnaround from 3 hours to 30 minutes.

Jul 2023 — Mar 2024

Senior Technology Operations Analyst, Konfront

- Mentored 4 Jr engineers, introduced code-review checklist, lowering post-release defects by **30 %**.
- Built **Plataforma-Silanes**, authenticated doctors browse discounted drugs, receive promos and place orders, Implemented exception handling for non-registered doctors and optimized onboarding;
- Developed **NutVC** investment-scoring portal: integrated startup questionnaires so VCs see a success-probability score.

- Developed **Primero Seguros** self-service quote & payment site, dynamic pricing plus third-party AI fraud-detection cut fraudulent claims 15 % and enabled customers to issue policies end-to-end.

Jun 2022 — Jul 2023

Technology Operations Analyst, Konfront

- Scoped features with clients, set story points and negotiated realistic timelines achieving **95 % on-time delivery**.
- Launched **MoodForkFood** foodie app, geolocated restaurant finder and in-app shop, grew influencer's follower engagement 60 % and opened a new merchandise revenue stream.
- Built **Anáhuac 360** Surveys platform for 5 000 students, automated survey creation, visualized results in dashboards and cut analysis time 70 %.
