Carlos Adrián Labra Granados, Front-End Developer

CDMX, México, 5525080393, carlosadrianlabragranados@gmail.com

PROFILE

Passionate web developer committed to continuous learning, dedicated to refining my skill set to improve every day. I enjoy applying my knowledge to create high-quality solutions that add value to teams and organizations. Every project is a new challenge that drives me to innovate and exceed expectations. My goal is to make a meaningful contribution to each initiative, prioritizing excellence and user satisfaction.

EMPLOYMENT HISTORY

Mar 2024 — Present

Technology operations engineer, Konfront

- Lead a 7-person team (3 Sr, 4 Jr) across ten concurrent projects; own sprint planning and OKRs.
- Launched Xcape travel-booking app for university groups: users build custom packages and pay in-app; processed 1 000 000 MXN in the first month and cut manual trip coordination for staff by 80 %.
- Launched J4VO small-business finance platform: dashboard cash-flow, expenses and tax tips so founders skip hiring an accountant; Embedded interactive KPI dashboard (Chart.js): owners track profit margins, top expenses and cash runway; 82 % report "better financial visibility" in in-app survey.
- Launched Inventa credit-quotation portal for insurance brokers; replaced spreadsheets with automated workflows, slashing quote turnaround from 3 hours to < 30 minutes and boosting data accuracy.

Jul 2023 — Mar 2024

Sr. Technology operations analist, Konfront

- Mentored 4 Jr engineers; introduced code-review checklist, lowering post-release defects by 30 %.

- Built Plataforma-Silanes: authenticated doctors browse discounted drugs, receive promos and place orders; Implemented exception handling for non-registered doctors and optimized onboarding; grew verified-doctor base from 1 200 to 2 800 in four months without extra support tickets.
- Developed NutVC investment-scoring portal: integrated startup questionnaires with an ML model so VCs see a success-probability score; reduced due-diligence time per deal from 45 minutes to < 5 minutes.
- Developed Primero Seguros self-service quote & payment site; dynamic pricing plus third-party AI fraud-detection cut fraudulent claims 15 % and enabled customers to issue policies end-to-end.

Jun 2022 — Jul 2023

Technology operations analist, Konfront

- Scoped features with clients, set story points and negotiated realistic timelines (95 % on-time delivery).
- Launched MoodForkFood foodie app: geolocated restaurant finder and in-app shop; grew influencer's follower engagement 60 % and opened a new merchandise revenue stream.
- Built Anáhuac 360 Surveys platform for 8 000 students; automated survey creation, visualized results in dashboards and cut analysis time 70 %, guiding budget decisions for the university.

EDUCATION

Jan 2016 — Dec 2020

Computer Systems Engineering, Universidad del Valle de México

INTERNSHIPS

Aug 2020 — Apr 2021

Professional Internship, Grupo Promesa

- Assisted in creating an internal hub, contributing to both front-end and back-end development aimed at optimizing the company's activity management.
